Brenda:

I've been instructed to move forward w/ the public comment component of the draft permit for Pineview.....we have the State of NV breathing down our neck! If I don't receive your comments by the end of the week there's a good chance they'll not make it into this round. Once the public comment period has been noticed, you'll have 30 days to provide your input. It would be better to do it on the front-end, obviously. Aaron
